PRESENTATION

Motion made by Representative Lozano, seconded by Representative Cushing and unanimously carried to postpone one week the Presentation by Biggs Airfield Army's Sergeant Major Academy Sergeant Donnie E. Webb on Hispanic Heritage Day on September 22, 2004. The purpose of this special observation is to introduce the Rich Heritage of the El Paso Area and the Hispanic Community to more than 500 senior soldiers enlisted in the Army's Sergeant Academy who come from various parts of the United States.

No action was taken on the discussion and action on a Resolution to rescind the August 31, 2004, Resolution establishing a six person ad hoc committee on (what is commonly referred to as) Arroyo Preservation. [Richard Schechter]

Mr. Richard Schechter, citizen, spoke on the creation of an Ad Hoc Committee to be charged with investigating and defining geologically occurring contours on and around the Franklin Mountains that could serve as water conveyance and/or runoff channels; to assess and review impact to development within those areas, to review legal authority and planning and engineering data; and to return to the El Paso City Council within 90 days with an appropriate ordinance. He stated that the committee had not accomplished any of those charges and added that trust between the public and the Council has eroded. He answered questions from and responded to comments made by the Council Members.

Representative Cobos responded that the Council would make adjustments, according with the budget. He stated that he would not expand the hours of operation at the Main Library, if it affects the hours of operation and staffing at libraries located in the other representative's districts.

Ms. Carol Brey-Casiano, Director of Libraries, commented on the approximately \$8 million Quality of Life construction project currently ongoing and explained that the library had already endured flooding and electrical problems, such as no air conditioning. She noted that while other cities close their libraries entirely during construction, the Main Library would continue to operate, albeit at reduced hours and staffing. She explained the hours of operation for the Main Library and the newly constructed Doris Van Doren Library, during the construction, and added that upon construction completion, regular operating hours at the Main Library would resume. She answered questions from and responded to comments made by the Council Members.

No action was taken on the following item: Discuss and take action on the proposed City of El Paso 2005 Tax Levy, it's 2nd corrected notice of effective tax rate and it's failure to properly inform the tax payers of the true financial condition of the City. [Ray E. Gilbert, Jr.]

The City Manager hereby be authorized to execute necessary budget transfers to accomplish the intent of this motion. This is a 2000 Quality of Life Bond Project.

Dr. Bill Torgerson, Zoo Director, spoke in favor of the budget transfer allocations.

Representative Lozano asked how involved Perspectiva 3 D/I (P+3) was with respect to the zoo projects.

Mr. Juan Contreras, Perspectiva 3 D/I (P+3), explained that the company was hired to review the process, not the technical aspects of the design. He explained that the company manages the whole process to include monitoring budgets and schedules, supervising the designs to comply with the user's request, following through on the bid and construction process and finally, moving the department into the facility. He explained that the company does review the construction plans and specifications for all projects.

Mr. Kevin Elkins, Assistant City Attorney, requested that, as per the Resolution authorizing the bond election, requires the Council determine a finding authorizing the substitution of a project. He requested that the finding be included in the Council's motion.

Mr. Contreras explained the need for the change in circumstance for the project and responded to questions by the Council Members.

Motion made by Representative Cushing, seconded by Representative Escobar and unanimously carried to accept the substitution of a surface parking lot in lieu of a parking structure on the Zoo Project 10 based on the finding of extraordinary change in circumstance.

Item: Discussion and action authorizing the El Paso Water Utilities - Public Service Board to submit a land study application and all related documents for City-owned property located North and South of Transmountain Road and West of the Franklin Mountains State Park in the Northwest Planning Area; and that the Planning, Research & Development Department be authorized to accept and process such application.

Motion made by Representative Austin, seconded by Representative Cushing and unanimously carried to direct staff to bring back in four (4) weeks a resolution to approve the PSB Master Plan as a master plan of PSB surplus land and to postpone this item for four (4) weeks to return to Council with the resolution.

Mr. Rudy Valdez, Planning, Research and Development, gave a PowerPoint presentation and explained that a land study was the initial step of the development process, prior to submittal of subdivision processing and zoning approval. He added that construction located on the property would occur in phases. He stated that as per the Municipal Code, the subdivision ordinance specifically, the City Plan Commission would approve the land study, not the City Council. He noted that the land study would require changes in the 2025 Proposed Thoroughfare System and noted that the Council would be required to approve those changes. He responded to questions and/or comments made by the Council Members.

Representative Austin asked what criteria the City Plan Commission (CPC) uses to approve land studies and whether or not the CPC could request additional open space be provided. She asked Mr. Valdez whether or not the applicant, the "City", was making policy decisions regarding the use of the land, zoning, and the sale of the PSB land consistent with the land study.

1st Motion:

Representative Austin asked that staff bring back to the Council a resolution, in two weeks, to approve this PSB Master Plan as a Master Plan of PSB surplus land that the Council could approve, modify or reject and asked that the item and following item be postponed for two weeks to allow for a Legislative Review Committee of the Whole meeting to be scheduled to provide further discussion. There was no second.

2nd Motion:

Representative Austin moved to postpone this and the following agenda item, in addition to the presentation of the resolution, for four (4) weeks. Representative Cushing seconded.

Mr. Matt Watson, Assistant City Attorney, explained that the zoning was not set by the approval of the land study and added that the land study was a conceptual plan. He explained that the CPC would need to rely on Title 19, of the Municipal Code and its requirements providing for open space.

Representative Cook asked how the Council could make recommendations to the City Plan Commission.

Representative Cobos asked whether or not the Council could approve the land study, as presented today, with the requirement that it be brought back from the CPC for final approval by the Council.

Mr. Watson provided legal advice regarding the agenda posting language and the definition of land study and Master Plan.

Representative Cushing asked Mr. Valdez questions regarding the approval of the sale of the land and subsequent zoning approval by the Council and the CPC's ability to adjust the location of the open spaces.

The following individuals spoke in opposition to the Northwest land study:

Mr. Stuart Mitchell, President of the Mountain Arroyos Neighborhood Association, spoke on his concerns regarding the Council passing major policy decisions on to another entity and questioned the Council's "rush to judgment". He stated that arroyos are a landmark to the community and an important part of the City's culture and should be protected and preserved in its natural state. He requested that the Council defer action on any development of the Northwest land until such time as a definition of "arroyo" is determined.

Dr. Rick Bonart, citizen, spoke in opposition to the land study as presented and provided the Council with his recommendation regarding the proposed land study. He referred to his presentation to the PSB and to questions he posed for the applicant at that PSB meeting regarding their cost analysis of components in the study. He responded to questions and/or comments made by the Council Members.

Mr. Richard Schecter, citizen, commented on the need of the Council to pass an ordinance preserving "arroyos" prior to approving the proposed land study. He made comments addressing "ponding areas" and the eyesores that they create. He requested that the Council provide a mechanism of informing the community when CPC meetings would be conducted regarding the land study. He explained that the City would be compromising the dollar amount of the PSB land with the intent to preserve "arroyos". Finally, he commented on the example the City would set regarding the preservation of arroyos and the requirement that developers must also observe the preservation of arroyos.

Mr. Mike Pink, Parkhill Smith & Cooper, responded to Dr. Bonart's comments and questions and/or comments made by the Council Members.

Mayor Joe Wardy noted that the land study, as presented by Parkhill, Smith and Cooper, was recommended by the PSB.

.....
Item: Discussion and action authorizing the El Paso Water Utilities - Public Service Board to submit a request for modifications to the 2025 Proposed Thoroughfare System as detailed in the Map Atlas of the Plan for El Paso and to submit all related documents for City-owned property located North and South of Transmountain Road and West of the Franklin Mountains State Park in the Northwest Planning Area; and that the Planning, Research & Development Department be authorized to accept and process such request.

Motion made by Representative Austin, seconded by Representative Cushing and unanimously carried to direct staff to bring back in four (4) weeks a resolution to approve the PSB Master Plan as a master plan of PSB surplus land and to postpone this item for four (4) weeks to return to Council with the resolution.

See above discussion.

Representative Cook moved to approve sending the Master Plan to the CPC as a land study. There was no second.

AYES: Representatives Cushing, Lozano, Cook, Escobar and Cobos
NAYS: Representative Rojas
ABSTAIN: Representative Austin

Mayor Joe Wardy noted that the issues relevant to the Northwest Planning Area were not the same as for the Northeast Planning Area.

Mr. Ray Adatao, El Paso Builder's Association, explained that it would be prudent of the Council to approve the Northeast Planning Area issues, as time was of the essence regarding construction for future Ft. Bliss personnel.

Representative Cook spoke on the development of a retirement community near the location of the Painted Dunes golf course and its inclusion in the Northeast Master Plan.

Representative Cobos moved to approve the ordinance with the following changes. Representative Cook seconded.

.696677 – total tax rate

Motion made by Representative Cobos, seconded by Representative Cook and unanimously carried to amend the ordinance as read into the record by Assistant City Attorney Ruth Reyes:

.696677 – total tax rate
.524662 – M&O
.172015 – debt service

Representative Rojas requested clarification regarding the M&O tax rate.

Mr. Bill Chapman, Deputy Chief Administrative Officer for Financial and Administrative Services, explained that the current tax rates for the M&O (maintenance and operation) was .519844, the debt service tax rate was .197733, and total tax rate was .717577, lower than the total tax rate for FY04. He responded to questions and/or comments made by the Council Members.

Representative Cushing asked Mr. Chapman why the M&O and debt service figures had differed, as published in the newspaper on three occasions.

Representative Cook referred to a decision written by Supreme Court Justice O'Neal, Supreme Court of Texas, referencing a lawsuit filed against Thomason Hospital District by Mr. Ray Gilbert and others. He explained that based on that decision, Mr. Chapman felt it necessary to err on the side caution and provide more information, as noted in the latest newspaper publication. He added that the Council could now achieve the effective tax rate of 69 cents per \$100 dollars of property tax valuation rather than raising property taxes as previously determined by the Council.

Representatives Austin asked Mr. Chapman questions regarding the notices published in the newspaper in 2001, 2002 and 2003, the City's use of commercial paper, reimbursement issues, and other issues.

Mr. Jim Martinez, interim City Manager, commented on the City's ability to use cash effectively.

Mr. Ray Gilbert, citizen, read from the State of Texas, Tax Code and made comments regarding the City's financial statement as published in the newspaper. He proposed that the Council adopt the M&O tax rate at .696677. He explained that the Council should not tax for any other year but the current year and responded to questions and/or comments made by the Council Members.

Representatives Cushing, Lozano, Cook, Cobos, Austin asked questions of Mr. Gilbert and/or made comments

Mayor Wardy clarified that the \$4.5 million in revenue funds were already spoken for and \$16 million was included in the fund balance, not in the \$16 million reserve funds. He stated that lowering the debt service tax rate would greatly impact the citizens of the City in the future.

Mr. Chapman recommended against lowering the M&O and debt service tax rates.

Mr. Hector Zavaleta, First Southwest Company, City's financial advising company, commented on the City's past, present and future financial situation, specifically the I&S tax rate.
